

September 19, 1954

My dear Mazia:

I am sorry to have missed another opportunity of meeting you— we arrived at Woods Hole (for a month's stay and a hurricane at the end) only to find you had just left. At any rate, I hear that you are scheduled for a Sigma Xi tour this fall. Although I believe you are assigned, unfortunately, to another district, I wonder whether your travels might not bring you close enough to Madison to permit a side trip. It should be possible for us to arrange for your expenses for a moderate distance, and I can assure you of many colleagues here eager to meet and hear you. If time and proximity permit, please do let me know.

Yours sincerely,

Joshua Lederberg  
Professor of Genetics
